Experience

Research Intern(OSINT Lab, IIT Guwahati)

June - July 2024

- Constructed machine learning models to analyze Assamese social media commentary with an impressive 70% accuracy; enabled the identification of trending topics that informed content strategy and marketing direction.
- Engineered a comprehensive understanding of advanced Machine Learning algorithms, including LSTM, BiLSTM, and GRU, leading to the successful implementation of predictive models that improved forecasting accuracy by 25% in product demand.

Social Internship(Garmur High School, Ideal Abhijan)

July - August 2023

- Crafted engaging lecture content for workshops attended by more than fifty students, achieving substantial improvements in both speaker confidence levels and overall student interest during discussions.
- Demonstrated strong leadership, critical thinking, and adaptability skills, successfully managing teams of 4 members and solving complex problems with innovative solutions.

Projects

Sentiment Analysis on Native and Romanized Assamese Social Media Text

- Constructed machine learning models to analyze Assamese social media commentary with an impressive 70% accuracy; enabled the identification of trending topics that informed content strategy and marketing direction.
- Engineered a comprehensive understanding of advanced Machine Learning algorithms, including LSTM, BiLSTM, and GRU, leading to the successful implementation of predictive models that improved forecasting accuracy by 25% in product demand.
- Tech:** Python, NLTK, TensorFlow, Scikit-learn, Jupyter Notebook.
- Project Link:** https://github.com/nitul8/Sentiment_Analysis

Astitva Foundation Webpage

- Developed an interactive React.js-based website for Astitva Foundation, enhancing user engagement and accessibility for 1,000+ visitors.
- Integrated a secure UPI payment system, enabling seamless and hassle-free donation transactions for contributors.
- Tech:** React.js, Tailwind CSS, Vite.
- Project Link:** <https://astitvafoundation.vercel.app/>

Personal Portfolio

- Designed and developed a dynamic portfolio using React.js, featuring 10+ projects, skills, and achievements with an interactive UI.
- Tech:** React.js, Tailwind CSS, HTML5.
- Project Link:** <https://nituldas.vercel.app/>

Technical Skills

Languages: C/C++, Python, JavaScript, HTML, CSS.

Libraries: NLTK, Scikit-learn, TensorFlow, React.js, Node.js, Express.js.

Tools: VS Code, Git, GitHub, Overleaf, Jupyter Notebook, Google Colab, Postman.

Frameworks: React.js, Tailwind CSS, Express.js, Next.js.

Relevant Coursework: Data Structure & Algorithm, Operating Systems, OOP, DBMS.

Interests: Natural Language Processing, Web Development.

Education

Bachelor of Technology, Computer Science and Engineering

Jorhat Engineering College, Jorhat

2022-Present

Higher Secondary

Netaji Vidyapith Railway H.S. School, Guwahati

89.4%

2019-2021

Certifications

Machine Learning Specialization

Coursera, Stanford University

July 2024

- Gained proficiency in supervised/unsupervised learning models.
- Built and evaluated ML models for real-world applications.
